

I am on the NO-Call List for Inidana and I love its results. I am so tired of receiving unwanted phone calls at "dinner Time" asking me to buy junk! I want it to remain it is my right to not have these calls and would like you not to remove the NO CALL LIST from our state. It the best thing that the Attorney General has ever done. The residents of IN speak for themselves by the amount of people that have signed up for it. Thank you, Karen Neal
